ASX Corporate Governance Principles and Recommendations – Third Edition released March 2014

Corporate Governance is framework of rules, relationships, systems and processes within and by which authority is exercised and controlled within corporations.

- Provides Investor Confidence
- This is about how we run our Companies, not just what we include in our Corporate Governance Statements in Annual Report
- Applies to all ASX listed companies – use the if not why not approach
- Under ASX listing Rule 4.10.3 need to include Corporate Governance Statement in Annual Report that meets the requirements of the rule (or detail URL for the page in its website where such a statement is located). Statement must include how corporation is following each individual recommendation
- If Corporate Governance Statement not Contained within Annual Report, it must be lodged at same time as Annual Report
- There are 29 Recommendations with commentary - however the commentary provided is for guidance only and does not trigger disclosure obligations under ASX Listing Rules.
- In Corp Government Statement ensure appropriate commentary is given on how the guideline has been met not just “the entity complies with this recommendation”.
- Also ensure detailed commentary is made when recommendation not complied with other than “due to size and circumstance”.

		<b>Total workforce</b>	100%	9%	7%	<b>10% by 2028</b>
		<p>As at 31 December 2018 the number of women in the Company's workforce was 50. This represents an overall participation rate of 9% (2017: 7%). Women comprise 7% of operations and maintenance roles, 14% of administration and supervisory roles and 13% of senior professional roles and managerial roles.</p> <p>In early 2012 the Company established measurable diversity objectives. In developing its objectives the Board considered the location and nature of the Company's operations as well as the potential impact of its major development project.</p>				

		<p>As a result, for the foreseeable future the Company will be based at Grange’s Tasmanian operations. Both Savage River and Port Latta are mature and established operations and by mining industry standards have a stable workforce with very low levels of staff turnover. Consequently there are limited opportunities for the Company to improve diversity through recruitment.</p> <p>In 2019 the Company reviewed its diversity objectives in the light of the changed operational landscape and market conditions. As a result amendments have been made to the timeframe for the attainment of its diversity objectives with 2028 being considered a more realistic target. The Company continues to aim to have women comprising 15% of senior professional / managerial roles and to increase the overall proportion of women in the workforce to 10%. The Board will continue to review progress against these targets at regular intervals.</p>

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and Directors are remunerated to a level consistent with the size of the Company.

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive compensation is separate and distinct.

No Director participated in any deliberation regarding his or her own remuneration or related issues. The Committee is confident that this process for determining remuneration is stringent and full details of remuneration policies and remuneration received by directors and

		<p>executives in the current period is contained in the “Remuneration Report” within the Directors’ Report of the Annual Report.</p>
	<p>8.2: A listed entity should separately disclose its policies and practices regarding the remuneration of non-executive directors and the remuneration of executive directors and other senior executives.</p>	<p>A copy of the Remuneration Policy can be found in the Corporate Governance section of the Company’s website.</p> <p>The Company has structured the remuneration of its senior executives, where applicable, such that it comprises a fixed salary, statutory superannuation and participation in the Company’s Employee Incentive Option Plan. The Company believes that by remunerating senior executives in this manner it rewards them for performance and aligns their interests with those of shareholders and increases the Company’s performance.</p> <p>Non-executive directors are paid their fees out of the maximum aggregate amount approved by shareholders for non-executive director remuneration. The Company does not adhere to Guidelines for non-executive director remuneration ‘Non-executive directors should not receive options with performance hurdles’. The Company has previously granted options to non-executive directors and, potentially, will do so in the future. The Board is of the view that options (for both executive and non-executive directors) are a non-cash cost effective benefit for small companies such as Grange Resources Limited that seek to conserve cash reserves. They also provide an incentive that ultimately benefits both shareholders and the option holder, as option holders will only benefit if the market value of the underlying shares exceeds the option strike price. Ultimately, shareholders will make that determination.</p> <p>The Remuneration Report contained in the Annual Report outlines the Director and executive remuneration arrangements of the Company in accordance with the requirements of the Corporations Act 2001 and the Corporations Regulations. It also provides the remuneration disclosure required by AASB 124 Related Party Disclosures.</p>

		There are no schemes for retirement benefits, other than superannuation, for Non-Executive Directors, where applicable.

A copy of the Security Trading Policy can be found on the policies section of the Company's website.
